Application Request for Deferred Submittal(s)

Building Permit Application Number: _____ - _____

Project Name/Description: _____

Project Address: _____

This form is intended to assist the applicant in meeting the requirements for providing a complete and comprehensive building construction plan set to Building Services Division for review and approval during the permitting process. An applicant may utilize this form to identify portions of submitted building construction plans that may be incomplete or have been provided for reference purposes only; or to indicate specific areas of building project construction that are intended to be submitted for review and approval at a later date (such as for bidder-design drawings, shop drawings, etc.).

(Note: Submission and approval of this request may supplement, or be deemed to satisfy the provisions of IBC Section 107 - requiring that a listing of deferred submittals must be provided on the building construction documents that are submitted for review and approval.)

Documents and/or plans for the deferred elements identified below must be submitted to the architect, engineer, or other project designee of record, who shall review them and forward them to the Building Official with a notation or accompanying qualification that they have been reviewed and found to be in basic conformance and compatibility with the building design. **No work associated with deferred submittals shall be commenced prior to specific City approval (and permitting, as applies).**

Please check all that apply:
