FOR PUBLIC AWARENESS:

DPD has received several reports of bear sightings in the Hoffman Hill and Palisade areas of DuPont. Washington Department of Fish and Wildlife (WDFW) has been notified.

Bears tend to avoid humans; however, prevention is the best advice. Access to food sources is the number one reason for conflict – Pet food, bird feeders and unsecured trash are some of the things that could attract a bear. When possible, put your garbage out shortly before the truck arrives.

If you're walking the DuPont trails, never travel alone, keep small children near you at all times, and always make your presence known by talking or making loud noises. Report any sightings to 9-1-1 and remember to keep a safe distance if you encounter a bear.
