City of DuPont Earns Risk Management Awards

The City of DuPont was recognized at the AWC Risk Management Service Agency (RMSA) Annual Meeting in Chelan for their hard work and dedication to proactively managing their risks, improving community safety, and contributing to lower insurance costs. Improving their liability claims experience over the past year earned them both RMSA's Risk Management Achievement Award and the Claims Improvement Champion Award.

Utilizing excellent risk management practices is especially important in today's landscape of skyrocketing insurance premiums. Actively managing liability risks helps keep municipal operations running effectively, reduces overall costs, and promotes stronger, more resilient communities.

RMSA members share in the costs of coverage as part of a pool of local governments. Proactive risk management efforts benefit RMSA members by keeping loss experience low through increased community safety, which positively impacts costs and attracts more favorable insuring partners.

A program of the Association of Washington Cities, RMSA is a municipal risk pool protecting the employees, assets, and officials of 108 of Washington's cities, towns, and special purpose districts from property and liability risks and costs. RMSA strives to solve problems before they happen and protect its members' futures when they do.

The Planning Commission Public Hearing for the Old Fort Lake Subarea Plan has been canceled for Monday, October 28th and will be held at a Special Planning Commission meeting on Wednesday, November 13th at 6:00pm.

AUGUST 2023

I-5 - Mounts Rd. to Steilacoom-DuPont Rd. Corridor Improvements

Beginning in late summer 2023, contractor crews working for the Washington State Department of Transportation will begin construction on Interstate 5 in DuPont near Joint Base Lewis-McChord. This is the third in a series of projects that widens I-5 to add HOV lanes between DuPont and Lakewood.

Improvements coming to DuPont and JBLM

In addition to extending the I-5 HOV lanes, construction crews will make improvements that enhance mobility and safety in DuPont and near the JBLM DuPont Gate at exit 119, including:

- A new bridge spanning I-5 and the railroad. The new bridge will feature a partial Diverging Diamond Interchange and a shared-use path for pedestrians and bicyclists between JBLM and DuPont.
- Direct access between JBLM and both directions of I-5.
- A new roundabout connecting Steilacoom-DuPont Road and the new overpass.

The project will also add a new signal at the intersection of the southbound I-5 off-ramp at Mounts Road (exit 116) and improve the I-5 vertical clearance over Pendleton Avenue.

What you can expect

Construction will begin in summer 2023 and is expected to be complete in 2026. The project consists of multiple stages that involve overnight and weekend ramp closures, lane shifts onto temporary pavement, potential speed limit reductions, and bicycle and pedestrian detours. Crews will contain dust and debris to the construction site and will minimize noise as much as practical. Clear signage will indicate required detours throughout the project.

The project extends HOV lanes in both directions into DuPont.

Community News

How do you think the military impacts our community?

The City of DuPont is a member of the South Sound Military and Communities Partnership. The organization serves as a valuable link between the military - including Joint Base Lewis-McChord - and the communities that surround the military base.

South Sound Military and Communities Partnership, or SSMCP, is conducting a short survey to gauge people's perceptions of the impact of Joint Base Lewis-McChord on the local economy and community. The survey is short - less than 5 minutes - and completely anonymous. Anyone can take it - whether you are active duty, retired military, military affiliated (or not), a local business owner or a resident.

Please take a few minutes to take the survey to let our partners at SSMCP know how you think JLBM impacts our local economy and the South Sound.

Find the survey at the link below. Thank you in advance for taking the time to share your responses. This survey will remain open until November 1st.

Safety Message - Halloween Safety Tips

Walk Safely

- Cross the street at corners, using traffic signals and crosswalks.
- Look left, right and left again when crossing and keep looking as you cross.
- Put electronic devices down and keep heads up and walk, don't run, across the street.
- Teach children to make eye contact with drivers before crossing in front of them.
- Always walk on sidewalks or paths. If there are no sidewalks, walk facing traffic as far to the left as possible. Children should walk on direct routes with the fewest street crossings.
- Watch for cars that are turning or backing up. Teach children to never dart out into the street or cross between parked cars.

Trick or Treat With an Adult

- Children under the age of 12 should not be alone at night without adult supervision. If kids are mature enough to be out without supervision, remind them to stick to familiar areas that are well lit and trick-or-treat in groups.

Keep Costumes Both Creative and Safe

- Decorate costumes and bags with reflective tape or stickers and, if possible, choose light colors.
- Choose face paint and makeup whenever possible instead of masks, which can obstruct a child's vision.
- Have kids carry glow sticks or flashlights to help them see and be seen by drivers.
- When selecting a costume, make sure it is the right size to prevent trips and falls.

On average, children are more than twice as likely to be hit by a car and killed on Halloween than on any other day of the year.

Drive Extra Safely on Halloween

- Slow down and be especially alert in residential neighborhoods. Children are excited on Halloween and may move in unpredictable ways.
- Take extra time to look for kids at intersections, on medians and on curbs.
- Enter and exit driveways and alleys slowly and carefully.
- Eliminate any distractions inside your car so you can concentrate on the road and your surroundings.
- Drive slowly, anticipate heavy pedestrian traffic and turn your headlights on earlier in the day to spot children from greater distances.
- Popular trick-or-treating hours are 5:30 p.m. to 9:30 p.m. so be especially alert for kids during those hours.
