

# CITY OF DUPONT'S WEEKLY BITS & BYTES

Friday, December 20, 2024

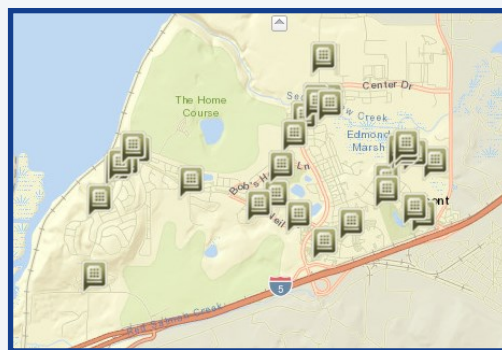

## Take time to enjoy DuPont's trails during the Holidays and all year long!

DuPont has developed an expansive system of trails connecting many parts of the city. The system consists of over 12 miles of both paved and unpaved trails, as well as several miles of designated bike lanes. In addition to these trails, Center Drive and McNeil Street include meandering walkways and multi-use paths that serve both transportation and recreational purposes. Check out the [City Trails Maps \(PDF\)](#).

Interested in a particular trail and want to learn more about it? Want a trail with a water view that isn't too difficult? Check out our trails [here](#). The features button allows you to searching many different types of trails. For example, "Trail- Water View" and "Trail- Easy" will only bring up trails with those features. Try it out and discover a new trail in DuPont!

From the City Trails webpage ([here](#)), you can find trail safety information including trail hours, rules, what to wear, trail hazards, personal safety, and walking, running, and biking information.

## **Safety Message: Electric Portable Space Heaters**

**Tips and recommendations for safely using space heaters can be found on the next page.**

## Electric Portable Space Heater Safety

When the weather turns cold, it can bring a chill into our homes. Portable space heaters have become a popular way to supplement central heating or heat one room. If you plan to use portable electric space heaters, make sure to follow these tips and recommendations:

### HEATER CHECKLIST

- Purchase a heater with the seal of a qualified testing laboratory.
- Keep the heater at least 3 feet (1 meter) away from anything that can burn, including people.
- Choose a heater with a thermostat and overheat protection.
- Place the heater on a solid, flat surface.
- Make sure your heater has an auto shut-off to turn the heater off if it tips over.
- Keep space heaters out of the way of foot traffic. Never block an exit.
- Keep children away from the space heater.
- Plug the heater directly into the wall outlet. Never use an extension cord.
- Space heaters should be turned off and unplugged when you leave the room or go to bed.

### Types of electric space heaters

#### Oil or water-filled radiator

Heated oil or water travels through the heater.

#### Fan-forced heater

A fan blows warm air over metal coils.

#### Ceramic heater

Air is warmed over a ceramic heating element.

#### Infrared heaters

Heat is created by infrared bulbs.

### Fact

Two in five deaths in space heater fires involve portable electric space heaters.
